Date Mailed : September 15, 2005

Patent No. : 6,846,089 B2
Inventor : Stevenson, James A.
Patent Issued : January 25, 2005
Title : METHOD FOR STACKING SURFACE STRUCTURED OPTICAL FILMS
Docket No. : 58035US002

Re: Request for Certificate of Correction

Consideration has been given your request for the issuance of a certificate of correction for the above-identified patent under the provisions of Rule 1.322.

Inspection of the file of the application for the patent reveals that the specification, is/are printed in accordance with the record in the Patent and Trademark Office, as passed to issue by the examiner. Numerous errors were found in the form 1050 submitted; for instance it is claimed that a semi-colon should follow the word "invention" in column 3 line 8, but the error appears to be on line 59. Also, the semi-colon does not appear in the specification as filed by Applicants, correction of which would require a fee. Please submit a new form 1050 and verify the location of each error, preferably citing the column first, then the line. There being no fault on the part of the Patent and Trademark Office, it has no authority to issue a certificate of correction under the provision of 1.322.

In view of the foregoing, your request for certificate of correction is hereby denied. However, further consideration will be given these matters, upon receipt of a request for certificate of correction under the provisions of 1.323, accompanied by the appropriate fee which is presently \$100.

Future correspondence concerning this matter should be filed and directed to Decisions & Certificates of Correction Branch.
